Work Experience

NTT DATA — Bangalore, India

Aug, 2023 - Present

Workforce Planning & Resource Senior Analyst

- Reduced resource-allocation conflicts by ~20% across 10+ Business Units by architecting structured capacity-planning frameworks and coordinating cross-functional workforce reviews.
- Improved reporting turnaround time by 30% by building Power BI dashboards and advanced headcount-forecasting models, enabling proactive staffing decisions for global delivery teams.
- Lifted resource utilisation by 15% across global teams by executing cost-benefit analyses on workforce cost models and delivering data-driven optimisation recommendations to senior leadership.
- Mitigated talent attrition risk by designing and owning utilisation-rate tracking and attrition-analysis programs, with insights directly shaping retention and succession-planning strategies.

Sales Operations Senior Analyst

- Increased quota-setting accuracy and strategic planning quality by delivering weekly pipeline and revenue-forecasting analyses to senior leadership across multiple Business Units.
- Reduced CRM data discrepancies by 25% and accelerated deal-validation speed by engineering Salesforce dashboards and automated trend-analysis workflows.
- Cut leadership report-preparation time by 20% by automating weekly report aggregation for sales enablement, training content, and executive communications.
- Strengthened GTM alignment by collaborating with the Global Sales Operations Team to streamline CRM hygiene, deal validation, and system functionality across global regions.

ORACLE INDIA PVT. LTD., BANGALORE
